

Investment Management

Developed By Parth Shah

Investment Management

- ✓ Parth Shah and Ranjan Shah, Both are doing Equity Trading in NSE & BSE Respectively since last 3 Years. Total Investment of Rs. 8,00,000 (INR) in Equity Trading. Monthly Income of Rs. 20,000 per Month from this Investment.
- ✓ Both are experts in Equity Trading. As Parth Shah is an Experienced IT Professional and Ranjan Shah is retired person from Central Bank of India. Son and Mother Both can understand each other very well.

Investment Management

- ✓ In Equity Trading, Observation & Experience really matters for when to Buy Stock and when to Sell Stock. Patience is also an important factor in this Trading Business. Don't get panic when market down. Understand Market Strategy very well. Stock Trading Pattern is also an usability factor.
- ✓ The main purpose of this Investment is to generate income from this. When Mother and Son want to go somewhere in Ahmedabad, Gujarat, India. They Call Uber Cab / Ola Cab / G-Auto and enjoy their journey.

Investment Management

- ✓ When Mother feeling lazy in kitchen then In evening Parth order food from Zomato (International Brand). Apart from that, They both can go to near by Restaurant and enjoy delicious food.
- ✓ Sometimes Mother and Son both are fighting with each other. At the end of the day Emotional Bonding is there between mother and son.
- ✓ Parth is 30 Years old guy and His mother is 65 Years old lady. The lady who is simple and believe in Satisfaction rather than Success.
